# Phonics Blending Breakthrough

- Do you teach phonics and have children who are struggling to blend?
- Are you in panic mode and desperately need ways to support them?
- Do you worry about boring worksheets and want fun ideas for your blending intervention group?

*'Phonics Blending Breakthrough' is the book for you!*

*Phonics Blending Breakthrough:*

- ✓ Shines a light on the specific challenges that make blending difficult for some learners.
- ✓ Moves beyond a 'one size fits all' approach.
- ✓ Uses evidence-informed strategies, step-by-step guidance and playful examples.
- ✓ Equips you with the confidence and clarity needed to help every child find success with blending.

# What will I learn about?

- The two key types of blending
- How to plan an intervention programme
- Specific barriers to blending
- Oral blending mastery
- Grapheme-phoneme correspondence
- Blending written words (VC and CVC words)
- Continuous and successive blending
- Embedding practice in everyday play
- Signs of progress
